***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 and 8-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant points to page 3, line to page 4, line 14 as having provided support for the newly-defined lower endpoint. The Examiner respectfully disagrees. The aforementioned passage does, in fact, expressly mention 30 wt.% and 40 wt.% as endpoints defining an acceptable amount of the polysiloxane component but, of course, *Yokota* anticipates the invention where the amount of polysiloxane is between 5 and 50 wt. %. Applicant is encouraged to review the findings in *In re Wertheim*, 541 F.2d 257, 191 USPQ 90 (CCPA 1976) which dictate the position of the Office on the matter of amending claims so as to redefine the endpoints of a disclosed range. See also MPEP 706.03 which states, "[n]ew matter includes not only the addition of wholly unsupported subject matter, but may also include adding specific percentages or compounds after a broader original disclosure, or even the omission of a step from a method.

***Allowable Subject Matter***

Claim 7 is allowable.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
